

Pharmaceutical Microbiologist

MedPharm Ltd is an innovation-driven pharmaceutical development company committed to the identification, creation and development of unique therapeutic systems for topical use specialising in drug delivery to the skin, nail, mucous membranes, eye, nose and lung.

We are seeking a dynamic, highly motivated candidate with a proven capability in Pharmaceutical Microbiology to work as part of a team using routine pharmaceutical and novel microbiological techniques. The ideal candidate would be one that can use their initiative to problem solve, multi task, work as part of a team of scientists for Sponsor driven projects and have good organizational skills to work under pressure and to meet strict timelines accurately and efficiently.

Ideally the candidates will meet the following criteria:

- Minimum 3 years experience in microbiology or completed an appropriate science honours degree
- Ideally would have experience or knowledge of GLP compliance.
- Knowledge of pharmaceutical microbiology and drug product testing

*Suitably qualified applicants should email beth.schulten@medpharm.co.uk requesting an application form. For further information please visit our website www.medpharm.co.uk . Please note non-EU residents are required to have a valid work permit for working in the UK. **Deadline for applications is 6 March 2009***
